

Helping You
Grow Your
Family.

WIN is here
for you.

Hope.
Believe.
Conceive.
Achieve.®

All of our efforts, expertise and
passion are poured into one mission –
helping you have a baby.

WINFertility is driven by the spirit
of giving it our all – from creating below
market-rate 'Treatment Bundles' SM
that include both medical treatment
and medications, to finding the best
fertility practitioners that fit your
unique needs.

**We don't hope you can have a
baby, we believe you can.**

**AFFORDABLE TREATMENT PROGRAMS
TO HELP YOU BUILD YOUR FAMILY.**

For more than 20 years, WINFertility has been a trusted partner to patients, physicians and large insurance payers, linking those struggling with infertility to those who can help.

WIN has managed hundreds of thousands of infertility cycles for large healthcare purchasers, and now we're offering patients without fertility insurance the same type of quality care and affordability, thanks to our breakthrough 'Treatment Bundles'SM. We manage the entire treatment process, serving as your expert coach every step of the way.

How WIN Helps You Build Your Family

THE RIGHT TEAM

Our friendly Nurse Care Managers and professionally-trained Patient Specialists form a 24/7 team around you, supporting you through every step of your fertility journey. They are guided by a dedicated Medical Advisory Board of leading reproductive endocrinologists, further ensuring that our patients receive the most appropriate and effective care.

THE RIGHT PHYSICIAN

We have a network of proven fertility physicians who offer a full spectrum of treatments. WINFertility's network of fellowship-trained physicians have achieved documented success rates that are among the top in each market they serve.

THE RIGHT PRICE AND PLAN

We provide lower than market-rate 'Treatment Bundles'SM, which combine medical services for a single IVF treatment and medications at a reduced "pay-as-you-go" price, versus a multi-cycle option where you must purchase multiple treatments you may never use in order to get a discount. WINFertility requires no clinical or age qualifications to participate.

THE RIGHT FINANCIAL HELP

If you need assistance financing your treatments, or prefer to pay for your 'Treatment Bundles'SM over time, we work with some of the most reputable financial companies in the nation that offer attractive rates and payment terms. And, because we also serve patients with limited insurance, or those who have exhausted their benefits, we are able to adjust pricing accordingly to coordinate with your own coverage situation.

Your Family Building Starts with 3 Simple Steps:

1 GET INFORMATION AND THE RIGHT SPECIALIST

Visit our website or call our Patient Specialists for more information about the WINFertility approach. WIN matches you to the WINFertility network fertility specialist best suited to your needs and helps arrange an appointment. We will answer your questions about the program and how our rates compare to other options in your area.

2 GET A PLAN, A PRICE AND FREE SUPPORT

When the WINFertility network physician and you agree on your best course of treatment, WIN will prepare your customized price quote for the 'Treatment Bundle'SM that includes both the medical services and drug therapies that your physician prescribes to help you have a baby. You will also have access to our WIN Nurse Care Managers to answer your questions, provide education and support you during treatment.

3 GET STARTED WITH A TRUSTED PARTNER

If you decide that WIN's program is right for you, you will make one payment to WINFertility and we will take it from there. We will order your medications, make sure you know how to take the drugs and answer your questions 24/7. Everything that is included in your custom 'Treatment Bundle'SM price quote is handled by us – reducing your stress. Now you can simply focus on having a positive outcome.

Hope. Believe. Conceive. Achieve.[®]
